

Vision Statement
St Patrick's Primary School partners with parents and the community to develop Christian character and individual excellence.

To accomplish this vision, we believe that:

We are a Christian Community, in the Catholic tradition, living out the values of the Gospels with Jesus as our model.

It is important to provide opportunities which challenge and inspire.
All members of the school community are encouraged to achieve individual excellence.

Parents are the primary educators of their children. We value and promote co-operative partnerships between parents, school and the wider community.

Our 4 Broad Strategic Goals

Mission and Religious Education
St Patrick's Primary School will educate for, develop and nurture an authentic Catholic community working towards Christ's mission in our world

Learning and Teaching
St Patrick's Primary School will provide quality teaching and learning opportunities to empower all learners to shape and enrich our changing world.

Professional Practice and Collaborative Relationships
St Patrick's Primary School will engage in professional practice and collaborative partnerships within and beyond the school community to ensure the vision of the school is realized.

Strategic Resourcing
St Patrick's Primary School will strategically resource the organizational structures, contemporary learning facilities and learning and teaching practices within the school through processes of reflection, review and ongoing renewal

Teaching and learning at St Patrick's Primary School empowers all learners in our community to understand, shape and enrich our changing world, by living the Gospel of Jesus Christ.

St Patrick's Primary is a safe, caring and compassionate community reaching out to others, especially the most needy. Our personal and professional relationships are the building blocks for the school community and form the basis of us as a Christian community in the Catholic tradition.
