Indonesian - Term 2 2014 Overview

In Indonesian studies this term, ‘Animals’ come alive as Senior students learn new language communication skills whilst observing animals commonly found in Indonesia, including monkeys, snakes, tigers and elephants.

Students will then explore ‘What’s the Weather Like’ and make comparisons with their experiences in Australia and other countries.

Towards the end of the term, students will design and create their own travel brochure, wherein students will use ICT skills and their knowledge of Indonesian animals, lifestyle and culture to encourage others to explore this diverse country.

Incorporated in lessons are games, video clips and real life stories, which are engaging methods to promote confidence and to encourage and promote student learning of the Indonesian language and culture.
