In Indonesian studies, Senior students will predominately learn communication skills (written and verbal) and explore many aspects of the wonderfully diverse Indonesian culture.

In Term 1, the main themes are: ‘Let’s Play’, which focuses on sports, particularly those relevant to students, and ‘What to Do? which explores a range of interesting leisure activities. Students will use new vocabulary in oral and written conversations using a variety of sentence structures and practise their Indonesian skills in role plays.

Additionally, students will prepare a short PowerPoint presentation discussing their favourite sport or leisure activity from an Indonesian perspective.

Games, video clips and real life stories are a few of the engaging methods to increase confidence and to encourage and promote student learning of the Indonesian language and culture.
