Time for Turf

Questions & Answers...

What is Mygrass made from? Mygrass is made from polypropylene or polyethylene yarn. It looks and feels just like the real thing.

How long does it last? Mygrass comes with a 8 year warranty but we have been advised that it should last up to 15yrs with only minor patching.

Does it need water? No, this type of turf is not water based.

Is it flammable? No.

Who will be installing our oval? Rick Pooley will be doing the installation. Rick has done extensive landscaping work throughout the school.

Health & Safety: All yarns used in manufacture are heavy metal free. Mygrass is unlikely to cause skin irritation or any adverse health effects. It is also non-abrasive which makes it perfect for school environments.

Other Catholic Schools have installed Mygrass on their grounds, here are just a couple.

ABOUT “MYGRASS”...
“Mygrass” is 100% Australian made & owned (Yatala QLD). Using the latest technology & raw materials. “Mygrass” is specialty surface for sport, commercial, residential and school playground surfaces. UV stabilised for Australia’s harsh conditions to prevent fading & deterioration of the surface. Extensive warranties apply to all “Mygrass” products.

Say ‘good-bye’ to this because when the students return from the September holidays they will have a new oval.

OTHER AREAS...
At this stage there are no plans to Artificially Turf the other two play areas in the school (Church St or outside toilet block).
We will be making a conscious effort to improve the grass in these areas. We also see it important like you to have some areas of natural grass in our school, not only for the students but for the look of our school.
